

Optimistic and Pessimistic Forecast Scenarios

The Terminal Area Forecast (TAF) has baseline forecasts of total enplanements and total airport operations by airport. In addition to the baseline forecast, FAA has produced an optimistic and pessimistic forecast scenario for these parameters for the 30 large hub airports and 30 medium hub airports in the 2017 TAF. The baseline, optimistic, and pessimistic forecasts are presented for 2018 to 2045. For more information see the write-up *2017 TAF: Optimistic and Pessimistic Forecast Scenarios for Large and Medium Hub Airports* .
